

PRODUCT PROFILE

About us

V.K. Enterprises (Pvt) Ltd (VKE) is a trusted household name in Sri Lanka, for Architects, Contractors and Interior Decorators.

Formed in 1980, we are now considered to be one of the most premium importers of construction materials, hardware and interior decor products in the country.

We started off with basic commodities like Gypsum, MDF and Wall Plaster, but now carry more technical, more advanced products in every category; our range ensure to offer options for Ceilings & Walls, Furniture, Flooring, Doors are more.

In addition we have expanded our range with local manufacturing, to Doors, Paneling & Knock Down Furniture, using the more premium finishes from around the world.

Mission

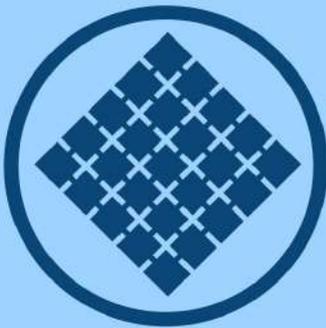

We are committed to; Broadening our product line and improving quality to meet the ever-changing requirements and standards in this market. Consistently introducing new products within this industry and educating users of their benefits across Sri Lanka. Being the best in customer service to maintain a long term, honest relationship between each Customer and VK Enterprises.

Vision

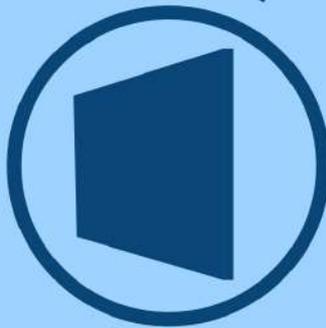

We strive to be the leading one-stop shop for high grade construction materials and interior decorative products in Sri Lanka. We wish to be recognized as an initiator of new, exciting product lines from all parts of the globe. We wish to bring products that homeowners and architects alike look forward to experience and integrate within their work in Sri Lanka.

Ceiling
Solutions

USG***kNAUF***

Plasterboards for Drywall and
Ceiling Systems

The image shows a grand, multi-story atrium with a highly ornate and complex ceiling. The ceiling features a series of large, arched, ribbed structures that create a sense of depth and grandeur. The lighting is warm and golden, highlighting the intricate details of the architecture. The overall atmosphere is one of elegance and sophisticated design.

USG*KNAUF*

Gypsum Boards with our Smart-Tech Ceiling Framework are the most common type of ceilings for internal false linings.

Generally used to cover all MEP and services along with access panels to access certain areas such as Electrical Points, Pumps or HVAC Dampeners

TECHNICAL PLASTERBOARDS **FOR ALL YOUR NEEDS**

MOISTBLOC PLASTERBOARD - FOR WET AREAS.

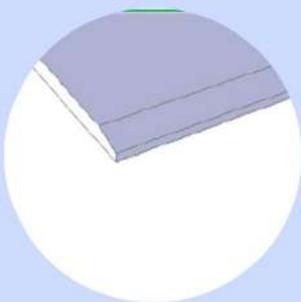

They have a specially treated core which provide less than 5% water absorption.

V-KASA Engineered Doorsets

Complete Engineered Doors &
Frames with Matching Veneer or
Laminates

FIRE & ACOUSTICS

We are currently manufacturing doors with 30 min, 60 min and 90 min Fire Rating, all as per KIWA / IFC Certification (Shown in Product Catalog).

The entire doorset is Fire Rated inclusive of the Leaf, Frame and all Seals (Seals can be selected by client as long as they abide by IFC / KIWA Certification).

As for Acoustics we can now go upto 48dB in rating using Cork+Rubber Based Extruded Cores from Germany

Rebated Door Leaves can also be offered with high Acoustical Rating for special applications such as Cinemas, Labs or other Private Spaces.

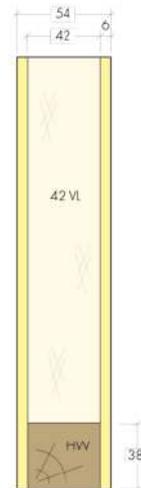

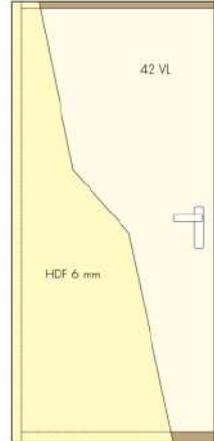

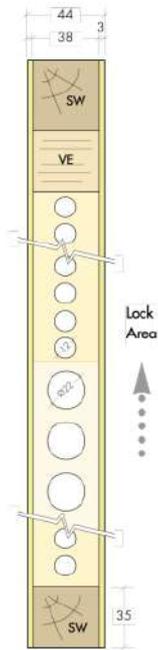

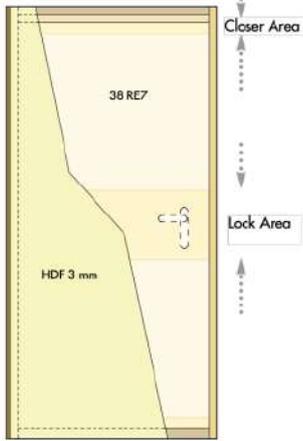

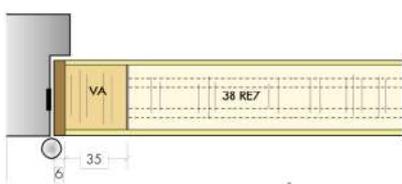

BESPOKE DESIGN

- VKASA Door-sets are completely wrapped in Single Finish for Leaf, Frame and Architrave using HPL, Veneer or Paint.
- We offer all door-sets in a range of High Pressure Laminates and Natural Veneers including Specially matched Teak, Oak and Walnut
- A single leaf can be made upto a large 3.6M or 12 Feet height.
- Our offering applies to Swing, Pivot and all Sliding Door Profiles and requirements.
